

# Program Board: Solve Dependencies

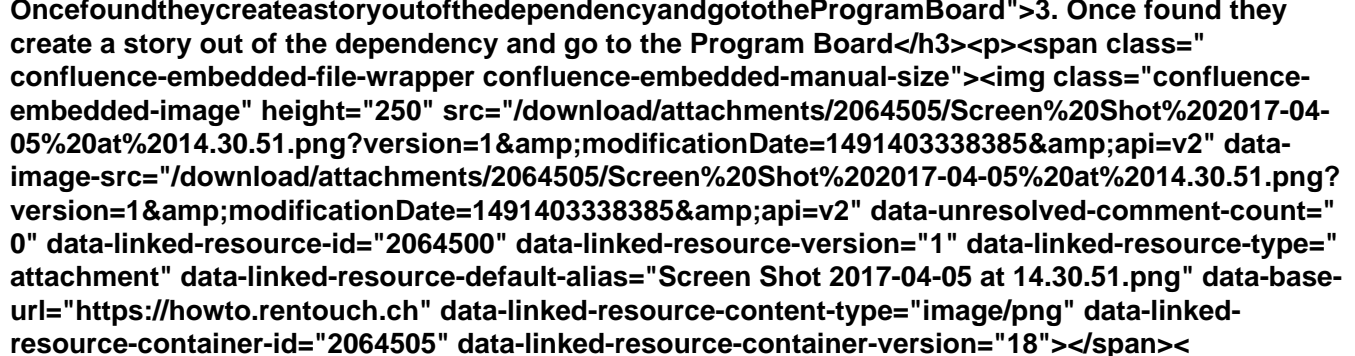

1. Flag the detected dependency

A screenshot showing a dependency being flagged in a software tool. The interface includes a search bar, a list of dependencies, and a 'Flag' button. The dependency being flagged is related to a team's work.

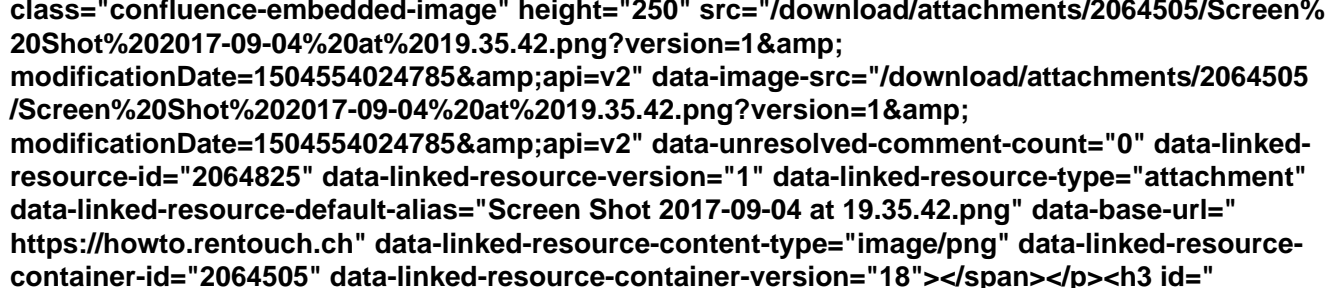

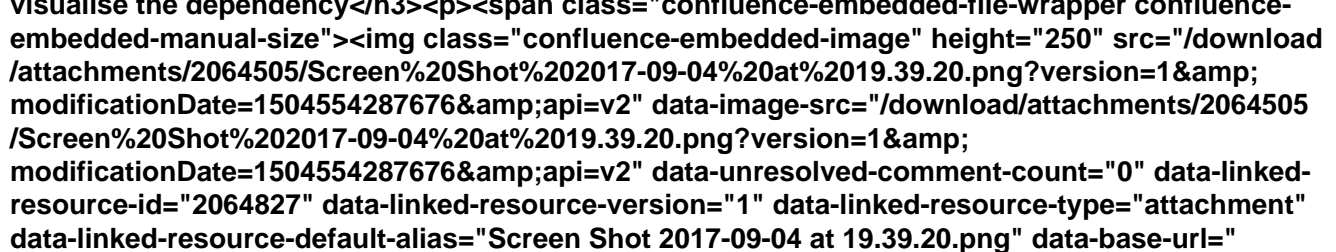

2. Now the team needs to find the team this dependency belongs to

A screenshot showing a search for the team associated with a dependency. The search results show a list of teams, and the team 'Team A' is selected. The interface includes a search bar, a list of teams, and a 'Select' button.

3. Once found they create a story out of the dependency and go to the Program Board

A screenshot showing a story being created from a dependency. The story title is 'Dependency X' and the description is 'Team A needs to complete this task'. The story is then added to the Program Board. The interface includes a search bar, a list of stories, and a 'Create Story' button.

4. Now you can visualise the dependency

A screenshot showing a dependency being visualized in a dependency graph. The graph shows the relationship between different dependencies and teams. The dependency being visualized is highlighted in red. The interface includes a search bar, a list of dependencies, and a 'Visualize' button.A screenshot showing a dependency being visualized in a dependency graph. The graph shows the relationship between different dependencies and teams. The dependency being visualized is highlighted in red. The interface includes a search bar, a list of dependencies, and a 'Visualize' button.
